

BRIEF REPORT ON THE SCHOOL PROJECT

The third quarter of the school year on resumed on Monday 3 August and will end in September 2009. This will prepare the students for the final quarter of the year and usher in a new session in January 2010. A total of \$30,000 has been allocated from AMNA to proceed with phase 3 of the building. These funds will be used to build the first set of three classrooms. The second phase of another three classrooms will be built upon completion on these classes scheduled for completion in October 2009. This will make a total of six classrooms projected for construction in 2009.

Phase 3 of the project has commenced with the completion of the final three classrooms of phase 2 , we are trusting God to complete it very soon. Before the commencement of the phase 3 of the project, some existing classrooms were divided into two so as to accommodate the numerous students that enrolled. The just completed three classrooms have really assisted in absorbing these students and some of the students have been moved to occupy these classes.

In the same vein, at the completion of the on going construction of the three additional classrooms, other students in other classes that were divided will be moved to occupy them. This, we believe, will materialize in the last quarter of the session which will commence in October.

We want to thank all that have been supporting the project and pray for a bountiful harvest for every good seed you have sown in Jesus name.

PICTURES OF THE COMPLETED PHASE 2 CLASSROOMS AND THE ONGOING WORK FOR PHASE 3 ON THE PROJECT ARE ATTACHED.

SCHOOL CHILDREN PLAYING OUTSIDE OF THE COMPLETED PHASE 2 CLASSROOMS

Phase 2 scheduled to be completed in June 2009 is now complete. The children will now have ample space in their classrooms as they will be moved from the previously divided classrooms to accommodate their numbers. Here are some of the children playing outside their new facility.
